## **MAHATMA GANDHI MISSION TRUST**

The Mahatma Gandhi Mission Trust was established on 20th December, 1982 at Nanded as an educational and philanthropic organization. Since inception, the Trust has rendered outstanding service to society by providing medical, engineering, architecture, nursing, management, agriculture, computer science & IT, bioinformatics, biotechnology, fine arts, journalism and school education with utmost dedication and commitment. Phenomenal expansion of educational facilities and infrastructure at Aurangabad, Navi Mumbai and Parbhani in Maharashtra and Noida (U.P.) bears testimony to the fact that the Trust is constantly alive to and is meeting ever increasing aspirations of the society in the field of education and healthcare services.

## **MGM INSTITUTE OF MANAGEMENT (IOM)**

MGM Institute of Management (IOM) is an AICTE approved, NAAC Accredited (Grade 'A') and ISO 9001:2015 certified institute affiliated to Dr. Babasaheb Ambedkar Marathwada University, Aurangabad. Established in the year 1994, the institute offers Master of Business Administration (MBA) programme. With best of the faculty, student centric approach in teaching, emphasis on research and consultancy and

all round development of students, the institute is well known as one of the most preferred choices for management education.

'Pride of place' which the institute has occupied is evident from the outstanding record of placements, corporate networking, innovativeness and encouraging feedback from industry and the alumni.

The management, faculties and non-teaching staff are motivated and proactive professionals who have created and sustained a world-class and progressive teaching – learning and transformational environment.

## **THEME OF THE WORKSHOP**

Educationists need to absorb the fundamental nature of the evolutionary character of higher education in academic curriculum, empowering students and scholars to create an updated learning process that is pragmatic, effective and methodically impactful. The watchful and deliberate efforts by policy-makers and academicians have put in place a set of practices within higher educational institutions that provide the most engaging opportunities for the students to acquire competencies and skills. This enables them to be fully equipped for the challenges now emerging globally. With progressive National Assessment and Accreditation Council (NAAC), one can foresee a radical turnaround the way quality education is made available by higher educational institutions in future. The dependence on the popular teaching aids and technology has become an indispensable tool that offers more flexibility to the students and the teachers. The pedagogical fraternity needs to be committed to engage students in active, collaborative and technology based learning methodologies and to develop formative and summative assessment of students' progress and learning.

Management education broadly aims to prepare graduate/post graduate students to take up junior level leadership position in their organizations more so in the corporate world. There are a number of models existing in management education differing in their applicability. There is a need of comprehensive analysis and discussion on different methodologies for enhancing the quality of management education. There is an urgent need to revise quality standards in management education to enhance the employability of the management students. A regular introspection of our teaching/research methodology, curriculum, education leadership and community engagement will go a long way in making our teaching process more relevant and dynamic in the wake of changing times.

In view of above, the Internal Quality Assurance Cell (IQAC) of MGM Institute of Management proposes to organize a Two Days state level Workshop on '**Meeting Quality Demands in Education with Special Reference to Management Institutes**' on April 26-27,2019 with the assistance from NAAC. The main focus of the workshop will be as under:

- To review the prevalent system of higher education in India in terms of policies and provisions vis-à-vis scope of implementing quality education standards;
- To identify and discuss the core aspects and criteria in quality concerns vis-à-vis teaching, learning, evaluation, and research in education in general and management education in particular.
- To suggest the practical and sustainable modus-operandi for quality management in education particularly in management institutes.

#### **OBJECTIVES OF WORKSHOP:**

- To identify the challenges in education in general and management education in particular in the present context.
- To evolve best methods and practices to meet the quality challenges in the management education.

**The resource persons related to the theme and sub themes are being invited for presentations and discussions. The detailed programme is enclosed herewith:**
